Your Trusted Export Partner from India

ARYAVART INTERNATIONAL
IMPORT & EXPORT

India – A Global Hub for Premium Building Materials

Located in the industrially advanced state of Gujarat, India has emerged as a global leader in the manufacturing and export of Ceramic Tiles, Sanitary Ware, and Granite Slabs, SPC Flooring, Bathroom Hardware, Kitchen Sink. With world-class infrastructure, modern production facilities, and strong export capabilities, India serves customers in more than 100 countries worldwide.

Ceramic Tiles – Morbi, Gujarat

Morbi is recognized as the largest ceramic tile manufacturing hub in India and one of the fastest-growing tile clusters in the world. With hundreds of advanced manufacturing units, the region produces wall tiles, floor tiles, vitrified tiles, and large-format slabs that meet international quality standards.

Modern technology, skilled workforce, cost-effective production, and strong logistics connectivity to major ports ensure consistent quality, competitive pricing, and timely global delivery.

Sanitary Ware – Gujarat Cluster

Gujarat's sanitary ware industry is known for innovation, precision manufacturing, and large-scale production capabilities. The region manufactures wash basins, water closets, urinals, cisterns, and designer bathroom solutions that combine durability with modern aesthetics.

Strict quality control systems, advanced machinery, and export-grade packaging make Gujarat a trusted sourcing destination for premium sanitary ware products.

Granite Slabs – Natural Stone Excellence

India is one of the leading exporters of natural granite in the world. Indian granite is known for its strength, rich colors, durability, and premium finishing.

Granite slabs are widely used for kitchen countertops, flooring, wall cladding, and architectural projects. Supported by modern processing units and efficient port connectivity, India ensures high-quality processing, customization options, and reliable international supply.

SPC Flooring – Advanced Flooring Solutions

SPC (Stone Plastic Composite) flooring is gaining global popularity for its durability, water resistance, and modern design appeal. Manufactured using advanced technology, SPC flooring offers rigid core stability, scratch resistance, and easy installation through click-lock systems. It is widely used in residential, commercial, and hospitality projects. With a wide range of textures, wood and stone finishes, and strong export packaging, Indian SPC flooring provides a cost-effective and high-performance flooring solution for international markets.

Bathroom Hardware – Modern & Durable

India manufactures a wide range of premium bathroom hardware designed for durability, functionality, and modern aesthetics. The product range includes shower, fuse, towel racks, soap holders, robe hooks, shelves, paper holders, and other bathroom accessories. Produced using high-quality stainless steel and corrosion-resistant materials, these products ensure long-lasting performance. Precision manufacturing, elegant finishes, and export-grade packaging make Indian bathroom hardware an ideal choice for global construction and interior projects.

Kitchen Sink – Stainless Steel Excellence

Indian kitchen sinks are recognized for their superior stainless steel quality, modern design, and long-lasting performance. Manufactured using advanced technology, these sinks offer excellent resistance to corrosion, heat, and daily wear. The product range includes single bowl, double bowl, handmade sinks, and designer models suitable for residential and commercial kitchens. With precise finishing, multiple size options, and reliable export standards, Indian kitchen sinks deliver both functionality and style for global markets.

ARYAVART INTERNATIONAL
IMPORT & EXPORT

Product Overview - SPC Flooring

Aryavart International Import Export presents premium SPC (Stone Plastic Composite) flooring – engineered for durability, style, and easy installation.

Key Features

Durable & Rigid – Resistant to scratches, dents, and impact.

Waterproof – Ideal for kitchens, bathrooms, and high-moisture areas.

Easy Installation – Click-lock system, no glue required.

Low Maintenance – Easy to clean with minimal effort.

Eco-Friendly – Made from sustainable materials, safe for indoor use.

Specifications

Core Material: Stone Plastic Composite (SPC)

Thickness: 4–8 mm (varies by design)

Wear Layer: 0.3–0.7 mm for superior protection

Plank Size: 150–230 mm width × 1200–1220 mm length (standard)

Finish Options: Matte, Wood Grain, Stone Look

Edge Design: Micro-beveled or straight edge

Applications

- **Residential:** Living rooms, bedrooms, kitchens, bathrooms
- **Commercial:** Offices, retail stores, hospitality spaces
- **Industrial light-use areas:** Warehouses, showrooms

Advantages

Superior dimensional stability compared to laminate flooring
Noise-reducing underfoot feel
Resistant to fading, stains, and temperature changes
Suitable for underfloor heating systems

Why Choose Aryavart SPC Flooring?

Export-Quality: Premium standards suitable for global markets

Variety: Wide range of designs, textures, and finishes

Support: Reliable supply, fast delivery, and consistent quality

Cost-Effective: Competitive pricing without compromising quality

Transform your space with SPC flooring – combining style, strength, and simplicity.

Product Overview - Bathroom Hardware

Aryavart International Import Export offers a complete range of high-quality bathroom fittings and accessories, combining durability, modern design, and reliable performance. Our products are manufactured using premium materials and advanced finishing technology, ensuring long-lasting use and elegant aesthetics for residential and commercial projects worldwide.

Product Range

Our comprehensive bathroom fittings range includes:

- Faucets & Mixers – Basin mixers, pillar taps, wall mixers, sink mixers
- Shower Systems – Overhead showers, hand showers, shower arms, shower panels
- Health Faucets & Jet Sprays
- Angle Valves & Stop Cocks
- Floor Drains & Waste Couplings
- Towel Rods & Towel Rings
- Robe Hooks
- Soap Dishes & Soap Dispensers
- Tumbler Holders
- Toilet Paper Holders
- Glass Shelves & Bathroom Racks
- Corner Shelves & Multi-Utility Bathroom Accessories

Material & Finish

Materials:

Stainless Steel (SS 304 / SS 202),
Brass, Zinc Alloy

Finishes:

Chrome Plated, Matte Black,
Brushed Nickel, Gold Finish,
Rose Gold

Surface Protection:

Rust and corrosion resistant for
humid bathroom environments

Key Features

- Durable and strong construction
- Elegant and modern designs
- Smooth and premium surface finish
- Easy installation and maintenance
- Designed for long-term performance

Applications

- Residential homes and apartments
- Hotels and hospitality projects
- Commercial buildings and offices
- Real estate and infrastructure projects

Why Choose Our Bathroom Fittings

- Export-quality products meeting international standards
- Wide variety of designs, sizes, and finishes
- Reliable sourcing from leading manufacturers in India
- Competitive pricing with consistent quality supply

Complete bathroom fitting solutions delivering style, functionality, and durability.

ARYAVART INTERNATIONAL
IMPORT & EXPORT

Product Overview - Kitchen Sink

Aryavart International Import Export offers a comprehensive range of stainless steel and quartz kitchen sinks, designed to combine durability, functionality, and modern kitchen aesthetics. Our sinks are manufactured using high-quality materials and advanced production techniques, ensuring long-lasting performance for residential and commercial kitchens.

Product Range

Our kitchen sink collection includes:

- Single Bowl Kitchen Sinks
- Double Bowl Kitchen Sinks
- Handmade Kitchen Sinks
- Press (Machine-Made) Kitchen Sinks
- Undermount Kitchen Sinks
- Top Mount / Drop-in Kitchen Sinks
- Drainboard Kitchen Sinks
- Workstation Kitchen Sinks

Applications

- Residential kitchens
- Apartments and villas
- Hotels and restaurants
- Commercial and hospitality kitchens

Material & Finish

Stainless Steel Sinks: SS 304 / SS 202 with Steel / Satin Finish

Quartz Sinks: Quartz stone composite with natural stone texture

Thickness (Steel): 0.6 mm – 1.2 mm depending on model

Quartz Colors: Black, Grey, White, Beige and other stone shades

Key Features

- Durable and corrosion-resistant construction
- Scratch and stain resistant surfaces
- Heat resistant and hygienic materials
- Modern and functional designs
- Easy installation and maintenance

Why Choose Our Kitchen Sinks

- Export-quality products meeting international standards
- Wide range of materials, sizes, and designs
- Reliable sourcing from leading manufacturers in India
- Competitive pricing with consistent quality supply

Providing durable and stylish kitchen sink solutions for modern global kitchens.

ARYAVART INTERNATIONAL
IMPORT & EXPORT

Customization, Quality & Global Presence

Customization & Client Support

We offer flexible customization options including **sizes, finishes, surface textures, colors, and packaging** to meet diverse project specifications and market requirements. Our dedicated export team provides **technical assistance, prompt communication, and reliable support** throughout the entire process – from **product selection and order confirmation to production coordination and final delivery.**

Quality & Certifications

We maintain strict quality control systems throughout the manufacturing and packing processes to ensure **durability, dimensional accuracy, and consistent product performance.**

Each batch is carefully inspected and tested for key parameters such as:

- Water absorption
- Mechanical strength and durability
- Surface finish and polishing quality
- Dimensional accuracy and consistency

All products are manufactured in compliance with **international quality standards for global export markets.**

Global Export Presence

We supply **ceramic tiles, sanitary ware, and granite slabs, SPC Flooring, Bathroom Hardware, Kitchen Sink** to clients across international markets, supporting **residential, commercial, hospitality, and large-scale infrastructure projects.**

Our strong logistics network, professional export documentation, and secure packaging ensure **safe, efficient, and timely delivery worldwide.**

Exporting Worldwide

ARYAVART INTERNATIONAL
IMPORT & EXPORT

Our products are manufactured in modern facilities using advanced technology and strict quality control systems. All materials are produced in compliance with internationally recognized standards to ensure durability, safety, and long-term performance for residential, commercial, and architectural projects worldwide.

Ceramic Tiles – Technical Overview

Our ceramic and vitrified tiles are manufactured in Morbi, Gujarat, one of the world's largest ceramic production hubs. The products are designed to meet international quality benchmarks and provide excellent mechanical strength, surface durability, and aesthetic finish.

Key Technical Features

- Low water absorption ensuring moisture resistance
- High breaking strength and load-bearing capacity
- Excellent surface flatness and dimensional accuracy
- High resistance to stains, chemicals, and household cleaning agents
- Scratch-resistant and wear-resistant surfaces
- Suitable for wall, floor, and large-format applications
- Manufactured in accordance with ISO and BIS standards

Applications include residential flooring, commercial interiors, hospitality spaces, wall cladding, and architectural installations.

Sanitary Ware – Technical Overview

Our sanitary ware products are engineered to meet international plumbing standards and ensure long-term performance, hygiene, and reliability. Advanced ceramic processing techniques provide superior surface finish, structural strength, and water efficiency.

Key Technical Features - Sanitary Ware

- High-density vitreous ceramic body for durability
- Smooth glazed surface for hygiene and easy cleaning
- High resistance to stains, chemicals, and discoloration
- Precision-engineered outlets and drainage systems
- Compatible with standard international plumbing fittings
- Suitable for residential, commercial, and hospitality installations

Products include wash basins, water closets (one-piece, two-piece, wall-hung), urinals, and other bathroom solutions.

ARYAVART INTERNATIONAL
IMPORT & EXPORT

Granite Slabs – Technical Overview

Indian granite is widely recognized for its strength, durability, and natural beauty. Our granite slabs are carefully processed and polished to meet international architectural and construction standards.

Key Technical Features

- High compressive strength and structural durability
- Low water absorption and weather resistance
- Natural resistance to scratches and abrasion
- Excellent polishing and finishing quality
- Heat and impact resistant surfaces
- Suitable for interior and exterior applications

Applications include kitchen countertops, flooring, wall cladding, staircases, facades, and architectural stonework.

SPC Flooring – Technical Overview

SPC (Stone Plastic Composite) flooring is manufactured using a rigid core technology that combines limestone powder, PVC, and stabilizers to deliver superior durability and dimensional stability. Designed for modern residential and commercial interiors, SPC flooring offers excellent moisture resistance, high wear resistance, and easy click-lock installation. The multi-layer structure ensures long-term performance, aesthetic appearance, and reliable flooring solutions for global construction projects.

Key Technical Features

- Rigid core structure for high dimensional stability
- 100% waterproof and moisture resistant
- Scratch-resistant and abrasion-resistant wear layer
- Anti-slip surface for safety
- Click-lock installation system for quick fitting
- Excellent resistance to temperature changes
- Suitable for residential and commercial flooring applications

Applications include residential apartments, offices, hotels, retail stores, and hospitality interiors.

ARYAVART INTERNATIONAL
IMPORT & EXPORT

Bathroom Hardware – Technical Overview

Bathroom hardware products are manufactured using premium-grade stainless steel and corrosion-resistant materials to ensure durability, strength, and long service life. Designed with modern aesthetics and functional engineering, these accessories enhance both convenience and style in contemporary bathroom spaces. Advanced manufacturing techniques and precision finishing provide excellent performance for residential, commercial, and hospitality projects.

Key Technical Features

- High-quality stainless steel construction
- Rust-resistant and corrosion-resistant surfaces
- Smooth polished or matte finish options
- Strong load-bearing capacity and durability
- Easy installation and maintenance
- Resistant to moisture and bathroom chemicals
- Designed for long-term use in humid environments

Products include towel racks, robe hooks, soap holders, shelves, tissue holders, and other bathroom accessories.

Kitchen Sink – Technical Overview

Kitchen sinks are manufactured using high-grade stainless steel and advanced fabrication technology to ensure durability, hygiene, and modern design appeal. These sinks provide excellent resistance to corrosion, heat, and daily kitchen use. Precision engineering ensures smooth finishing, efficient drainage, and compatibility with modern kitchen installations for residential and commercial applications.

Key Technical Features

- Premium stainless steel construction
- High resistance to corrosion and rust
- Smooth brushed or satin surface finish
- Noise reduction and anti-condensation coating
- Heat and impact resistant structure
- Easy cleaning and hygienic surface
- Available in multiple bowl designs and sizes

Applications include residential kitchens, commercial kitchens, hotels, restaurants, and hospitality projects.

ARYAVART INTERNATIONAL
IMPORT & EXPORT

Packaging & Loading Details

Our products are packed using export-grade materials and secure loading methods to ensure safe transportation and damage-free delivery to international destinations.

- **Export-standard packaging based** on product type, size, weight, and fragility (**ceramic tiles, sanitary ware, granite slabs, SPC flooring, bathroom hardware, and kitchen sinks**)
- Strong corrugated cartons with protective foam / thermocol inserts to prevent breakage and surface damage
- **Individual product wrapping** using protective sheets, plastic film, and corner guards
- **Reinforced packing for heavy and fragile sanitary ware and kitchen sink items**
- **Wooden pallets and fumigated pallets** available for safe container handling
- Granite slabs packed in strong wooden bundles / crates with protective support
- SPC flooring packed in durable cartons with **moisture protection** and palletized for safe transport
- Bathroom hardware packed with protective foam and individual wrapping to **prevent scratches and damage**

Identification & Labeling

- Each package clearly labeled with **product name, model, size, color, batch number, and quantity**
- **Barcoding or customized labeling** available as per client requirements
- **Customized branding and private label packaging** available for distributors and project buyers

Container Loading & Logistics

- **Scientific palletization and container loading to ensure balanced weight distribution**
- **Proper stacking and securing** to minimize movement during transit
- Suitable for **sea freight, road transport, and multimodal export logistics**
- Packaging designed to withstand **long-distance international shipping conditions**

Our dispatch operations are efficiently connected to major Indian ports including Mundra Port and Nhava Sheva (JNPT), enabling smooth container movement and reliable worldwide delivery.

ARYAVART INTERNATIONAL
