About Company

Welcome to ARYAVART INTERNATIONAL IMPORT & EXPORT

Aryavart International Import & Export (AIIE), founded by Mr. Ansh Chaudhary, is a professionally managed export company based in Gujarat, India. We specialize in the global supply of premium building materials, with a strong focus on Sanitaryware and bathroom solutions for international markets. With a strong commitment to quality, reliability, and long-term partnerships, we aim to deliver excellence in every shipment and build trust with clients across the globe .

What We Believe

At Aryavart International, we believe that business is built on trust, transparency, and consistent quality. Our philosophy is simple – deliver the right product, at the right time, with the right commitment.

Our Mission

To provide high-quality sanitaryware and bathroom solutions to international markets while maintaining competitive pricing, timely delivery, and complete customer satisfaction.

Our Vision

To become a globally recognized export company known for integrity, reliability, and strong international partnerships.

Quality Control

Quality is the foundation of our business. Every product we source undergoes strict quality inspections to ensure it meets international standards. We work closely with certified manufacturers to maintain consistency, durability, and premium finishing.

Proper Packaging

We understand the importance of safe international transportation. Our packaging is designed according to export standards, ensuring products are well protected from damage during loading, transit, and unloading.

Our Quality Certificates & Industry Standards

We follow internationally recognized quality practices and export compliance standards. Our supply chain partners operate under ISO-certified manufacturing systems and adhere to global trade regulations, ensuring reliability and peace of mind for our clients.

Our Global Network

With a growing international client base, Aryavart International Import & Export is expanding its presence across multiple countries. Our strong coordination, professional communication, and export expertise enable smooth & efficient transactions worldwide.

Message from the Director

Mr. Ansh Chaudhary **Director** **Aryavart International** **Import & Export**

At Aryavart International Import & Export, our vision is to deliver high-quality sanitaryware and bathroom solutions from India to customers across the globe with reliability and professionalism. We are committed to offering products that combine modern design, durability, and international quality standards.

As a merchant exporter, **we work closely with leading manufacturers in India to ensure consistent quality, competitive pricing, and timely delivery for every order.** Our goal is not just to supply products, but to build long-term business relationships based on trust, transparency, and mutual growth.

We understand the expectations of international buyers and focus on smooth communication, proper documentation, and secure packaging to make every transaction seamless and dependable.

I personally assure our valued clients of our dedication, integrity, and best export services at every step. We look forward to creating successful global partnerships and serving your sanitaryware requirements with excellence.

Warm Regards,
Mr. Ansh Chaudhary

World-Class Sanitaryware Manufacturing Hub - Gujarat, India

Located in the dynamic industrial region of Morbi and surrounding clusters of Gujarat, India's sanitaryware industry has gained strong global recognition for quality, innovation, and reliability. This region is known for its advanced production facilities and large-scale manufacturing capabilities, producing a wide range of sanitaryware including wash basins, water closets, urinals, cisterns, and designer bathroom solutions that are exported to more than 100 countries worldwide.

The strength of this sanitaryware hub lies in modern technology, skilled craftsmanship, stringent quality control, and cost-efficient production. Supported by a robust logistics network and proximity to major ports, manufacturers ensure consistent quality, competitive pricing, and timely international delivery. This integrated ecosystem makes Gujarat a trusted sourcing destination for premium sanitaryware products in the global market.

Technical Information for Sanitaryware Products

Our sanitaryware products are engineered to meet international plumbing standards and are suitable for residential, commercial, and hospitality installations. The following technical guidelines ensure proper installation, durability, and long-term performance across all product categories.

General Installation Guidelines

- Installation should be carried out by a qualified plumber or technician
- Ensure wall and floor surfaces are level, strong, and properly finished
- Verify water inlet, outlet, and drainage alignment before fixing
- Use recommended fixing bolts, sealants, and accessories only
- Follow local plumbing codes and international installation standards

Wash Basins (Wall Hung / Table Top / Counter / Pedestal / Integrated)

- Suitable for wall-mounted, countertop, or vanity installations
- Fix using stainless steel rag bolts and proper wall anchors
- Ensure correct waste outlet alignment and sealing
- Do not over-tighten fittings to avoid ceramic stress cracks
- Allow proper support for countertop or cabinet-mounted basins

Water Closets (One Piece / Two Piece / Wall Hung / EWC)

- Compatible with S-Trap and P-Trap drainage systems
- Recommended flushing pressure: Standard domestic water pressure range
- Fix securely to floor or concealed frame using approved fixing kits
- Ensure proper wax seal or sealing compound at outlet joint
- Dual flush and rimless models require correct flush tank alignment

Urinals & Divider Plates

- Wall-mounted installation with concealed or exposed flushing system
- Proper slope and outlet alignment required for efficient drainage
- Use corrosion-resistant fixing hardware
- Maintain adequate spacing for commercial washroom installations

Technical Information for Sanitaryware Products

Squatting & Western Pans

- Floor-mounted installation with trap connection (P or S trap)
- Ensure accurate floor leveling before final fixing
- Proper sealing required to prevent leakage and odor issues
- Suitable for high-traffic residential and public sanitation projects

Trap & Waste Compatibility

- Compatible with standard P-Trap and S-Trap configurations
- Waste outlet sizes available as per international plumbing standards
- Supports bottle traps, floor traps, and concealed trap systems

Material & Build Specifications

- High-quality vitrified ceramic body
- Low water absorption for durability
- Smooth glazed surface for hygiene and easy cleaning
- Strong load-bearing structure for long-term performance

Important Technical Notes

- Handle ceramic products carefully during transport and installation
- Avoid impact loading and improper handling
- Always use recommended accessories and flushing systems
- Custom technical specifications available as per project requirement

Packaging & Loading Details

- Export-standard packaging based on **product type, size, weight, and fragility** (basins, closets, urinals, pans, etc.)
- Strong corrugated carton boxes with **thermocool / foam protection** to prevent breakage and surface damage
- Individual product wrapping with **protective sheets and corner guards** for safe handling
- **Wooden pallet packing** available for heavy sanitaryware items to ensure stability during transit
- Proper palletization ensures **balanced weight distribution** and **safe container stacking**
- Each carton labeled with **product name, model, size, color, batch number, and quantity** for easy identification
- **Customized packaging options** available as per client branding and project requirements
- Scientific container loading system to **minimize damage during long-distance transportation**
- Suitable for **sea freight, road transport, and multimodal export logistics**
- Complies with **international export packaging standards and safety norms**
- Designed to ensure **damage-free delivery** and efficient global shipment handling

Our dispatch operations are well connected to major **Indian ports** including **Mundra & Nhava Sheva**, enabling fast container movement, flexible shipping line selection, and timely worldwide delivery.
